INSTRUCTIONS

1. Draw a wavy guide line across the piece using a pen. Start anywhere on the edge and continue the line inside and outside of a bowl, across the plate, and around a vase or a cup
2. Start sponging along the guide line with yellow # 46. Sponge a yellow ribbon around the bowl. It should be about 1 inch wide.
3. Right next to the yellow ribbon, sponge a green ribbon using # 48.
4. Sponge a blue ribbon that shares a side with green one. Use # 35.
5. On the other side of yellow ribbon, sponge with orange # 18. Follow the wave drawn in step 1.
6. Use pink to fill in available space on the piece.

Note: Each color should appear as a soft sponged ribbon wrapping around the piece. There should be no gaps between sponged color ribbons. They should blend into one another.

7. Add second and third coat to each color.

8. Use a toothbrush with white # 67 to add small white speckles all over the background. Dip a toothbrush into white underglaze, hold the toothbrush close to the surface of the bowl, and flick the bristles with your finger. This will add a magical sparkle to the rainbow.
